

## Revenue Maximization Group Announces Care Coordination Agreement with Pulmonary & Internal Medicine Associates, Inc

Boca Raton, November 14, 2017- Revenue Maximization Group (RMG), a leading provider of Chronic Care Management services nationwide, has announced that Pulmonary & Internal Medicine Associates, Inc., (PIMA) has signed a master services agreement for RMG to provide its Chronic Care Management, Annual Wellness and Advanced Care Planning management services. PIMA is a multi-specialty clinic located in Stuart FL that employs nine providers.

PIMA was looking for a qualified partner that had demonstrated success in delivering the highest quality, patient centric service to its large Medicare patient base. PIMA evaluated the 5-top tier CCM vendors in the industry and selected RMG because of its quality based outcomes and personalized attention they give to the staff and each of their patients. "I love the program and what it can do for the patients, additionally the support it provides to our Providers (Physicians/ARNPs) which helps facilitate the highest quality of patient care. Part of this is because of RMG's ability to come in, evaluate and deliver a program that is conducive to the way we practice medicine. This minimizes change and increases continuity of care. Our patients are important to us, their care and wellbeing is paramount to our success. This program partnered with RMG enables us to provide that extra step of care that allows our patients to know we truly care!" stated Silvermoon Whitewater Taggart, PhD, MBA, CPC, AAPC Fellow who is the Practice Administrator.

"It is a very exciting and dynamic project. PIMA is extremely committed to the AWW/CCM program and is taking advantage of RMG personalized care coordination services", commented Stuart Miller, President & CEO of RMG.

Taggart added "During the first 3 months of services, RMG has made significant differences with our patient base, we enjoy the presence of our RMG care coordinators, we utilize the scheduled monthly calls for care coordination and have clearly seen a dramatic impact with care plan compliance. The only regret is that we did not partner sooner!"

*About PIMA is a multi-specialty private provider group located in Stuart, Florida.
