

Revenue Maximization Group reiterates its full service offering for former CareSync Clients

Boca Raton, Florida (June 22, 2018)

The stunning announcement that CareSync, a Chronic Care Management company has shuttered its doors has left their clients and patients without the services that helped manage a physician's sickest patients.

Revenue Maximization Group (RMG) provides a turnkey full service offering that includes on site staffing that deliver:

- Annual Wellness Visits (AWV)
- Chronic Care Management (CCM)
- Advanced Care Planning (ACP)
- Transitional Care Management (TCM)
- Behavioral Health Integration (BHI)

Stuart Miller, CEO commented "RMG provides a full-service package that practices are recognizing is the highest quality and best value. For those CareSync customers who wish to provide continuity of care for their patients RMG is poised and has the capability to handle the transition in a seamless manner."

About RMG: With more than 100 years of leadership expertise in health care management, finance, supply chain and operations, and Information technology, RMG is uniquely qualified to deliver the highest level of Preventative Care Services through its Annual Wellness, Chronic Care Management, end to end services. Our unique approach of placing our employees onsite at our client locations set us apart in many ways. Additionally, RMG optimizes cash flow, recovers denied claims and design systems that boost financial efficiency that supports patient care. Our solutions deliver enhanced care through care management programs, additional cash flow, practice management and data intelligence to optimize business of healthcare. RMG allows clients to focus on their core mission: Providing excellent care.
